

6/7 Canberra

On Monday week 10, most of the year 6/7's of Woodend Primary went on a school trip to Canberra on 3 buses to learn about Australia's Democracy System and History.

The feelings I had before we left for Canberra

were unexplainable and when we arrived at the motel I felt nervous about what was waiting ahead for me. Knowing that I was miles away from my family was a little uncomfortable but the excitement of Canberra distracted me from the sad thoughts.

Floriade was my most favourite thing to do. There were many things to explore and eat. We had tickets given to us by the teachers to go on the Ferris wheel, the view was amazing!

The Dinosaur museum was the last Night time activity for our Canberra trip. I learnt so much at the museum. My favourite part thing to learn was that my own budgie is in fact a Dinosaur

I really enjoyed the Portrait Gallery because we got

to draw as well as looking at some really good paintings. The first drawing I did was a picture of a blind musician and we had to capture the light and darks of the picture. The next painting we had to copy was of Captain James Cook which wasn't as good as my first. We studied it for a while then faced the opposite way and drew it the way we remembered the painting.

I really enjoyed going on this trip and I would have been extremely disappointed if I had decided not to go. Canberra was a fantastic experience.
