

# Student Code of Conduct for the Acceptable Use of the Internet and School Network

Name:

Date:

Students will:	Student Initial:
<u>Use the Internet and the school network as a tool to assist in their learning and only for positive purposes.</u>	
<u>Seek permission from the teacher before sending any email or instant messages.</u>	
<u>Use only authorised passwords and keep those passwords secret (this includes not using another student's password).</u>	
<u>Follow cyber smart guidelines.</u>	
<u>Use the Internet to send information for learning purposes only.</u>	
<u>Report to the teacher any offensive, illegal, inappropriate communications or websites visited.</u>	
<u>Use cloud-based storage for learning purposes only.</u>	
<u>Only access other students' files/digital learning for collaborative purposes and respect the learning of others.</u>	

Students will <u>not</u> :	Student Initial:
<u>Use any digital technology to bully, harass, or harm anyone, or the school itself.</u>	
<u>Pretend to be someone else when communicating online.</u>	
<u>Give personal information about themselves or another person (full name, address, phone number, personal photos of self or others).</u>	
<u>Conduct financial transactions online.</u>	
<u>Install or download any unapproved software or apps.</u>	
<u>Damage any digital technology or the network in any way through inappropriate use.</u>	
<u>Use or access apps unrelated to the learning program.</u>	
<u>Bring offensive/inappropriate materials to school. Offending devices may be confiscated.</u>	

We expect all students to strictly adhere to this code of conduct. Any breach of the Acceptable Use Policy will result in the student losing their network privileges for a period of time, as determined by the teacher, parent and principal.
